PROFILE

Cybersecurity student at Munster Technological University (MTU) with hands-on lab experience in SOC analysis, network traffic investigation, SIEM monitoring and digital forensics. Practical work includes 50+ SOC analysis exercises and 20+ Wireshark investigations, alongside Wazuh, LetsDefend and CyberDefenders labs. Experienced in analysing network and endpoint evidence, identifying IOCs, reconstructing timelines and documenting security findings. Seeking an entry-level SOC, Security Operations, Information Security or Blue Team role.

CORE SKILLS

Security Operations	Alert triage, log analysis, incident investigation, event correlation, IOC identification, timeline reconstruction
Network Analysis	Wireshark, TCP/IP, DNS, HTTP/HTTPS, TLS, SMB/SMB2, Kerberos, endpoint and conversation analysis
SIEM / Endpoint	Wazuh, Windows Security events, authentication analysis, File Integrity Monitoring, Registry investigation
DFIR / Security	Volatility 3 fundamentals, malware traffic analysis, threat intelligence, MITRE ATT&CK, CVE/CVSS analysis, CIS assessment
Systems	Windows 11, Linux command line, permissions, processes, services, logs, networking, basic Bash and Python

CYBERSECURITY PROJECTS & PRACTICAL EXPERIENCE

SOC Analysis Portfolio | GitHub — 50+ exercises

- Investigated brute force, account compromise, privilege escalation, persistence, lateral movement and multi-stage activity using structured log analysis.
- Documented observations, assessments, confidence, timelines and MITRE ATT&CK mappings while distinguishing evidence from assumptions and unknowns.

Wireshark Investigations | GitHub — 20+ investigations

- Analysed DNS, TCP, HTTP, TLS, SMB and Kerberos traffic to identify hosts, users, suspicious infrastructure, downloaded artifacts and IOCs.
- Completed malware-traffic and network-forensics investigations using endpoint statistics, conversations, protocol filtering and traffic reconstruction.

LetsDefend SOC Portfolio | Hands-on SOC labs

- Triaged phishing, suspicious PowerShell, RDP, malicious macro, cloud-access and malware alerts; correlated email, browser, endpoint and network evidence.

Wazuh SOC & Endpoint Security Labs | Wazuh Cloud

- Monitored Windows 11 authentication and privileged-logon events, investigated FIM/Registry changes and correlated security events across Wazuh modules.
- Reviewed detected CVEs and remediation requirements and assessed Windows 11 configuration against the CIS benchmark.

CyberDefenders DFIR Portfolio | Hands-on DFIR labs

- Completed network, memory, threat-intelligence, OSINT and mobile-forensics investigations, including Volatility 3 process/network analysis and Android artefact examination.

EDUCATION

Higher Certificate in Science in Information Technology and Cybersecurity (NFQ Level 6) | Munster Technological University (MTU) — *Current Student*

Completed modules: Networking Fundamentals, Systems Scripting, Modular Programming, Cyberethics, Physical Computing, Programming Fundamentals, Web Development Fundamentals, Maths for Computer Science.

Current modules: Linux Administration, Computer Security Principles, Routing & Switching Concepts, Computer Architecture, Client-side Web Development.

Master's Degree – Control, Expertise and Food Safety in Ecological Agrotourism

Bioterra University, Bucharest, Romania | 2009

90 ECTS | Romanian *Master Diploma*– QQI/NARIC comparability: Irish NFQ Level 9

Diploma in First Line Management (Supervision)

National College of Ireland, Dublin | 2007 | Merit

TRAINING

- Microsoft SC-900: Security, Compliance and Identity Fundamentals- In Progress.
- OverTheWire Bandit — ongoing Linux and security command-line practice.
- Additional practical training through LetsDefend, CyberDefenders and malware traffic analysis labs.

PROFESSIONAL EXPERIENCE

PM Admin | DesignPro Automation, Rathkeale, Co. Limerick — *Oct 2022 - Present*

- Provide administrative support to project management and sales teams, coordinate project documentation and records, and support communication across departments.

Bus Driver | Mannings Coaches, Co. Limerick — *Aug 2018 - Jul 2021*

- Delivered professional customer service while maintaining transport compliance, reliability, responsibility and time management.
